

MELCO MOMENTS

CMA AWARD

Last year, the Conveyor Manufacturers Association of South Africa, introduced an award for "Service To The Industry". This year, the selection committee awarded it to Mel.

During the presentation, the present Chairman of the CMA gave a glowing encounter of Mel's 30 year history with the CMA and industry in general, including reading an extract from the minutes of a meeting held in 1976, in which the Chairman suggested that the association invite Mel Cohen from Melco Mining Supplies to attend a CMA meeting. The minutes from a meeting the following year record that he had joined the association, and of course it wasn't long before he was appointed Vice Chairman, Chairman and Director, (a position which he still holds today).

It was an incredible experience listening to the Chairman talking about Mel, and his contribution to the industry for more than 30 years. We, as a Company, will most certainly derive enormous benefit from this accolade.

Knowing that MELCO is a household name in our industry, both in South Africa and many other parts of the world, it was interesting to note the expressions on the faces of several young engineers, looking on in amazement to see that there is actually a person called MEL COHEN after whom the Company is named.

THE WAY FORWARD
